

*Inside this booklet are details of all the awards available for members of GirlguidingUK*

*Anyone can apply for these awards for another person but it is advisable to ask your Commissioner for support (unless it is for them!)*

*All applications whether National, Region or County Awards need to go through the County Awards Committee where once checked will be endorsed by the County Commissioner.*

*The County Awards Committee's role in National and Region Awards is to check the application is sufficient and appropriate to pass scrutiny by the Region Awards Committee that meets twice yearly.*

*It is very important that any applications for Awards are kept confidential and that the member for whom the Award is being applied for does not know about the application.*

*The Awards Committee would encourage Guiders all over the County to consider these Awards and in consultation with your Commissioner put forward applications to County at any time. We generally meet in May and November but can put on extra meetings if required.*

*Please use the application form in this booklet for County Awards. For National and Region Awards the application form is on the Region and National websites*
